

CAPTURE THE SPIRIT OF CAMARADERIE WITH THE HARLEY-DAVIDSON® 2014 MOTORCLOTHES® WINTER COLLECTION

- A combination of iconic designs and warming fabrics define the MotorClothes Winter Collection -

OXFORD (October 21, 2014) – As winter approaches in the Northern Hemisphere, Harley-Davidson has unveiled its 2014 MotorClothes Winter Collection, designed to capture the nostalgic and iconic camaraderie experienced on and off the bike.

Inspired by the dark shadow silhouettes of a winter night sky, the colours, fit and styling of the Men's Winter Collection contrast with elements of warmth and comfort that help to encapsulate the feeling of huddling around a campfire with friends. From leather to garage shirts, the collection is pure Harley-Davidson signature style reinvented to let riders gear up and get out on the road. It features easy-care styles designed with waterproof and windproof resistant fabrics as well as thick, wool-blended and thermal lined cold-weather styles, providing that all-important warmth to allow longer riding during the winter.

Harley-Davidson enthusiasts can be ready for the unexpected weather the winter months bring with a versatile jacket that adapts in seconds – the **Rocker Back 3-in-1 Leather Jacket** (right). It is made from mid-weight leather and comes with a removable cotton-blend hoodie for extra warmth when the weather turns colder, but also features vents for airflow when riders need to cool down.

For those who want something a little different but still desire classic Harley-Davidson styling and embroidered graphics, the **Hex Head Quilted Jacket** (left) is made of 100% nylon and comes with quilted body and sleeve lining as well as zipper hand-warmer pockets for extra warmth, guaranteeing the wearer comfort and practicality.

Also part of the collection is a range of effortless and timeless woven tops and garage shirts, which draw on vintage-inspired graphics and seasonal colours, with easy-to-maintain wrinkle-resistant woven plaid.

In contrast, the Women's Winter Collection is all about luxury, bold styling and layering for extra warmth and comfort during cold weather.

Inspired by outdoor splendour, the collection features attention-grabbing pieces and textures from cosy knits to animal-print textures and distressed leathers. It is comprised of exquisite styles to celebrate the glitz and shine of the holiday season and the edgy, rebellious spirit of the woman rider.

Take the **Alexis 3-in-1 Leather Jacket** (right) for example – a garment perfect for all-weather riders as it provides the same type of flexibility found in the men’s equivalent, but with a closer fitted silhouette and embroidered graphic design details to add fashionable elements to functional practicality. Made of lightweight leather, it has a removable hoodie for added warmth and body-armour pockets for wearing out on the road.

A must-have for the colder months, the flattering **Waterproof 3-in-1 Functional Jackets** (left) will repel the winter elements to keep the wearer dry and warm whilst still offering versatility.

To add a little more glamour to the Winter Collection, a new range of long-sleeved **Henley** shirts carrying muted colours, graphics and tones provide the perfect canvas for bold, eye-catching embellishments and textures. On top of this, especially for those very cold months in mid-winter, there is a selection of hats and scarves in soft textures with a hint of sparkle from sequins and rhinestones.

All items can be purchased at your local Harley-Davidson dealership. For more information about the collection, visit www.Harley-Davidson.eu/motorclothes.
